Clinton E. Day On Writing *Set Your Own Salary*

What inspired you to write *Set Your Own Salary*?

I wanted to share my entrepreneurial journey and help others follow the same path. After training as a commercial insurance broker, I started, built up, and sold three insurance agencies in Florida and Georgia. Along the way, I overcame challenges, learned to adapt to market conditions, and perfected a niche product to a targeted industry. I wanted to give others the same opportunity by telling my story in an honest and straightforward way.

How is *Set Your Own Salary* different from other business books? What value do you think it adds to readers who have read books with similar focuses, like *The Lean Startup*?

It's conversational and easy to read, providing real-life stories to illustrate the characteristics of entrepreneurship. Among those important traits are desire, idea generation, opportunity recognition, risk-taking, creativity, and high energy. The book puts Lean Startup in perspective, and tells when to use it and how to blend the new method with the old business plan. It is a proven formula for new venture success.

Why should entrepreneurs, both accomplished and aspiring, buy this book?

To learn how to deal with challenges creatively, save time and money, and think outside the box. The book combines many Lean Startup sources in a clear, concise practice, making it easier to understand. Evidence-based entrepreneurship uses validated learning to help startups become efficient, reducing the amount of time and money necessary to succeed. *Set Your Own Salary* provides a high-percentage model to guide entrepreneurs through proven practices.

What would you say is your best piece of advice to entrepreneurs?

Use the evidence-based method to research market demand, and follow the high-percentage model to lower the risk of failure. Both procedures described in *Set Your Own Salary* can bring financial independence, personal satisfaction, and impact social change to help small businesses succeed and make the world a better place.
